#576: Signs? What Signs?

Quit bothering me. I'm on my smoke break, for goodness sake. That's why it's called a "break" – because it means I can zone out, forget about job stress and demands, and just inhale toxic and addictive chemicals for a few minutes in peace. I'll worry about all those rules and precautions later, when my break is over and I get back to work.

P.S. – This photo was taken behind an RV dealership in Ohio.
